This meeting will focus on final review of ISO/IEC 10646-2: 2001 DIS / CJK Unified Ideographs Extension B code chart. According to WG2# 39, all content of CJK_B has been frozen, no unification/ separation, no character addition/ deletion /re-ordering/ re-encoding is allowed anymore, only the font quality can be improved and the mapping table can be updated by including D.P.R. Korea's source code. IRG Editors are requested to work harder to ensure the major proof-reading job with PreDIS and DIS chart be done before the meeting. Now, the IRG Editors can start reviewing on the PreDIS version. The PreDIS R1 version will come soon in the later of November. The goal of the 16th meeting is to finalize the CJK_B DIS when the meeting is closed.

For the time being, it is unlikely to add any new items into the agenda.

Looking forward to meeting you again in Seoul !
