

ISO/IEC JTC1/SC2/WG2/IRG IRG N1469

Title: UTC Font Request

Richard Cook & Ken Lunde

11 June 2008

Consensus 115-C22 from the UTC #115 meeting (05/12/2008–05/16/2008) stated the following:

Whereas the continued synchronization of Unicode and 10646 is vital to the success of both, and the publication of a version of the Unicode Standard containing Extension C requires fonts sufficient to print in multi-column format for all sources, the UTC urgently requests that the IRG provide fonts for the publication of Extension C in the Unicode Standard. The same considerations will apply to all future CJK additions.
