This document provides a follow-up on the **two pending characters** mentioned in IRG [N2861](#) (in response to IRG [N2860](#)) during the IRG #65 meeting, as explained below. In summary, the comments are as follows:

- (1) **U+2976E** 𩚑: agreed to modify the glyph.
- (2) **U+20885** 𩚑: no change.

Details see below.

- (1) **U+2976E** 𩚑: MOE agreed to revert the glyph from "巳" to "巳".

Note 1: TCA looked into the glyph modification history of this character in UCS. At IRG #36 meeting, TCA was asked to revert to the UCS 2003 glyph (see IRG [N1795](#)). MOE is happy to revert to "巳".

(2) U+20885 勳

After internal discussion, MOE decided not to modify the glyph. The Variants Dictionary includes three component forms (勹, 文, 勹), but as "文" is the standard form, the current glyph will be kept as is.
