ISO/IEC JTC 1/SC2/**WG2** **N 1060**

DATE: 1994-09-14

TITLE: IRG's proposal on 5 columns' representation of East Asian Unified Ideographs in ISO/IEC 10646

SOURCE: IRG

REFERENCES: Conclusion H2 of IRG third meeting

ACTION: Consider this IRG proposal for future revision of ISO/IEC 10646.

CIRCULATION: ISO/IEC JTC 1/SC2/WG2

IRG asks SC2/WG2 to consider addition of V column (Viet Namee's column) to the code tables for CJK Unified Ideographs in ISO/IEC 10646 standard. The rationale for the addition of column is as follows.

Rationale:

IRG has accepted the requirements of Viet Nam in its request for a separate column to represent the horizontal supplementation and vertical extension requirements for Viet Nam. IRG believes that WG2 can find ways to add a 5th column without requiring additional pages in the standard. IRG recommends that WG2 employ smaller fonts in its depiction of CJK Unified Ideographs in order to reduce space requirements.
