**Doc Type: Working Group Document****Title: Proposal to encode the AFGHANI SIGN in the UCS****Source: Michael Everson****Status: Individual Contribution****Action: For consideration by JTC1/SC2/WG2 and UTC****Date: 2002-11-20**

In January 2000, N. R. Liwal said on the Unicode discussion list that he had been to Kabul and met with Ministry of Finance of Afghanistan as well as to others about the Afghan currency sign and its usage in many spheres of life, from accountancy to government correspondence and general marketing. No formal proposal was ever generated to follow up on that discussion. Like the RIAL SIGN, this character should be encoded.

FD FE            AFGHANI SIGN

The glyph represents the abbreviation *afg*, or ALIF FEH GHAIN, with the first letter subscripted and the flourish of the final truncated. A standard representation of this would be . Below is shown the shifted keyboard layout state of Asiasoft's widely-used Pashto input method, showing the AFGHANI SIGN.

**A. Administrative****1. Title**

Proposal to encode the AFGHANI SIGN in the UCS.

**2. Requester's name**

Michael Everson

**3. Requester type (Member body/Liaison/Individual contribution)**

Individual contribution.

**4. Submission date**

2002-11-20

**5. Requester's reference (if applicable)****6. Choose one of the following:**

**6a. This is a complete proposal**

Yes.

**6b. More information will be provided later**

No.

## **B. Technical -- General**

**1. Choose one of the following:**

**1a. This proposal is for a new script (set of characters)**

No.

**Proposed name of script**

**1b. The proposal is for addition of character(s) to an existing block**

Yes.

**1b. Name of the existing block**

**2. Number of characters in proposal**

1

**3. Proposed category (see section II, Character Categories)**

Category A.

**4a. Proposed Level of Implementation (1, 2 or 3) (see clause 14, ISO/IEC 10646-1: 2000)**

Level 1.

**4b. Is a rationale provided for the choice?**

No.

**4c. If YES, reference**

**5a. Is a repertoire including character names provided?**

Yes.

**5b. If YES, are the names in accordance with the character naming guidelines in Annex L of ISO/IEC 10646-1: 2000?**

Yes.

**5c. Are the character shapes attached in a legible form suitable for review?**

Yes.

**6a. Who will provide the appropriate computerized font (ordered preference: True Type, or PostScript format) for publishing the standard?**

Michael Everson.

**6b. If available now, identify source(s) for the font (include address, e-mail, ftp-site, etc.) and indicate the tools used:**

Michael Everson, Fontographer.

**7a. Are references (to other character sets, dictionaries, descriptive texts etc.) provided?**

No.

**7b. Are published examples of use (such as samples from newspapers, magazines, or other sources) of proposed characters attached?**

Yes.

**8. Does the proposal address other aspects of character data processing (if applicable) such as input, presentation, sorting, searching, indexing, transliteration etc. (if yes please enclose information)?**

No.

**9. Submitters are invited to provide any additional information about Properties of the proposed Character(s) or Script that will assist in correct understanding of and correct linguistic processing of the proposed character(s) or script. Examples of such properties are: Casing information, Numeric information, Currency information, Display behaviour information such as line breaks, widths etc., Combining behaviour, Spacing behaviour, Directional behaviour, Default Collation behaviour, relevance in Mark Up contexts, Compatibility equivalence and other Unicode normalization related information. See the Unicode standard at <http://www.unicode.org> for such information on other scripts. Also see Unicode Character Database <http://www.unicode.org/Public/UNIDATA/UnicodeCharacterDatabase.html> and associated Unicode Technical Reports for information needed for consideration by the Unicode Technical Committee for inclusion in the Unicode Standard.**

The character should have the same properties as other Arabic currency signs.

## **C. Technical -- Justification**

**1. Has this proposal for addition of character(s) been submitted before? If YES, explain.**

No.

**2a. Has contact been made to members of the user community (for example: National Body, user groups of the script or characters, other experts, etc.)?**

Yes.

**2b. If YES, with whom?**

N. R. Liwal and the United Nations Development Program (Afghanistan)

**2c. If YES, available relevant documents**

N/A.

**3. Information on the user community for the proposed characters (for example: size, demographics, information technology use, or publishing use) is included?**

Speakers of Pashto and Dari.

**4a. The context of use for the proposed characters (type of use; common or rare)**

To represent the afghani currency in monetary amounts.

**4b. Reference**

**5a. Are the proposed characters in current use by the user community?**

Yes.

**5b. If YES, where?**

General use.

**6a. After giving due considerations to the principles in Principles and Procedures document (a WG 2 standing document) must the proposed characters be entirely in the BMP?**

Yes.

**6b. If YES, is a rationale provided?**

Yes.

**6c. If YES, reference**

Keep with other currency signs or with the RIAL SIGN.

**7. Should the proposed characters be kept together in a contiguous range (rather than being scattered)?**

**8a. Can any of the proposed characters be considered a presentation form of an existing character or character sequence?**

The abbreviation is based on the letter sequence ALIF FEH GHAIN, but it is a symbol in its own right and shows different shaping behaviour from the ordinary sequence in other contexts.

**8b. If YES, is a rationale for its inclusion provided?**

**8c. If YES, reference**

**9a. Can any of the proposed characters be encoded using a composed character sequence of either existing characters or other proposed characters?**

No.

**9b. If YES, is a rationale for its inclusion provided?**

**9c. If YES, reference**

**10a. Can any of the proposed character(s) be considered to be similar (in appearance or function) to an existing character?**

No.

**10b. If YES, is a rationale for its inclusion provided?**

**10c. If YES, reference**

**11a. Does the proposal include use of combining characters and/or use of composite sequences (see clauses 4.12 and 4.14 in ISO/IEC 10646-1: 2000)?**

No.

**11b. If YES, is a rationale for such use provided?**

**11c. If YES, reference**

**12a. Is a list of composite sequences and their corresponding glyph images (graphic symbols) provided?**

No.

**12b. If YES, reference**

**13a. Does the proposal contain characters with any special properties such as control function or similar semantics?**

No.

**13b. If YES, describe in detail (include attachment if necessary)**

**14a. Does the proposal contain any Ideographic compatibility character(s)?**

No.

**14b. If YES, is the equivalent corresponding unified ideographic character(s) identified?**
