Report of the 13th Plenary Meeting of ISO/IEC JTC 1/SC 2

1. Opening of Meeting

The 13th Plenary Meeting of ISO/IEC JTC 1/SC 2 was held in Markham, Ontario, Canada on 24th June 2004. Prof. Kohji Shibano, Chairman of SC 2, opened the meeting at 15 p.m.

Prior to the plenary, the Ad hoc group meeting on Disposition of Comments for ISO/IEC 14651/PDAM 2 was held, chaired by Mr. Alain LaBonté, Project Editor.

2. Roll call of delegates

The meeting had 26 participants from the following National Bodies and Liaison organization: Canada, China, Finland, France (by proxy), Germany, Iran, Ireland, Japan, Republic of Korea, Lithuania, Morocco, Poland, Sweden (by proxy), USA and Unicode consortium. Attendance list is attached to SC 2 N 3755.

3. Remarks by host

On behalf of the National Body of Canada, Dr. Umamaheswaran, welcomed the delegates.

4. Adoption of Agenda

The final draft agenda in Document N 3743 rev. (attached to this report) was adopted without modifications.

5. Appointment of Drafting Committee

Mr. Errki Kolehmainen (Finland), Mr. Keld Simonsen (Norway), Mr. Tatsuo Kobayashi (Japan) and Mr. Mike Ksar (WG 2 Convener) were appointed as the drafting committee members and supported the Chairman and Secretary.

6. Results from the 12th SC 2 Plenary Meeting

There was no comment on the resolutions and report (SC2 N 3668, N 3675) of the 12th plenary held in Tokyo, Japan, 2002-12.

In relation to the past SC 2 plenary resolutions, it was decided to ask JTC 1 to request ISO and IEC to make ISO/IEC 10646 freely available since most of the information of the standard is on the Unicode website and the situation was felt to fit the ISO and IEC criteria for free availability of JTC 1 standards. ISO/IEC 14651 was also in the same situation; therefore the standard was added to the request.

[Note: The request from SC 2 to make SC 2 standards freely available was approved by Resolution 32 of the JTC 1 Ottawa JTC 1 plenary in 1997. However, the request was not elevated to ISO and IEC level pending that JTC 1 prepares its criteria for free availability of standards.]

7. Review of Secretariat Report

Document SC 2 N 3737 was reviewed. It was commented that the title, area of work, and programme of work of WG 2 were outdated. To reflect the recent publication of ISO/IEC 10646: 2003 and others changes, it was resolved to update them. Resolution M13.04.

It was also proposed to modify the scope of SC 2 to clearly include the “sorting ordering” project which was transferred from SC 22. It was resolved to seek JTC 1 approval at its next plenary. Resolution M13.02.

8. Reports and Review of JTC 1 Activities Affecting SC 2

8.1 JTC 1 Singapore plenary

Resolutions from the JTC 1 Singapore meeting (SC 2 N 3705) were reviewed.

8.2 JTC 1 Ad Hoc Group on "JTC 1 Vocabulary" (ISO/IEC 2382)

The invitation from the JTC 1 to participate in this ad hoc group was reviewed. There was no volunteer for SC 2 representative. More information was needed to decide as to whether SC 2 sends a representative to this group.

9. Review of SC 2 Business Plan

SC 2 N 3694 contained the SC 2 Business plan submitted by Prof. Shibano to the JTC 1 Singapore plenary. The Chairman asked the SC 2 members to provide Mr. Kobayashi, new chairman of SC 2, with any input to his Business plan for the next JTC 1 Berlin plenary.

10. Status of 14651 projects

10.1 Progress of ISO/IEC 14651/PDAM 2

Mr. Alain LaBonté, Project Editor, reported that disposition of comments on PDAM 2 was completed at the ad hoc meeting held before this plenary and recommended that PDAM 2 be progressed to FPDAM ballot. (Resolution M13.08)

10.2 Project Assignment

Discussion was held based on the three NB contributions, N 3725 (Canada), N 3740 (Ireland), N 3741 (USA). The NB positions were split over creating a new WG or assigning the project to WG 2. The Swedish position (by proxy) was to decide by ballot, not at the meeting. After the discussion, the chairman proposed to place the project directly under SC 2 as a compromise solution. The proposal was accepted. (Resolution M13.07)

The term of office of Professor Shibano as the Chairman ended at this meeting. At this opportunity, he summarized the notable accomplishments of SC 2 during his term since his appointment as the acting chair in 1996 as follows:

- SC 2 has gained a solo responsibility for development of coded character sets in ISO,

IEC with the transfer of coded character set standards for information documentation developed by ISO/TC 46. Also, with the ISO/IEC 10646 development, de-jure and de-facto separation existed in the market place has been resolved.

- SC 2 revised a series of SC 2 standards developed in the past and made them consistent with ISO/IEC 10646 character names.
- The SC 2 operation has become transparent with the JTC 1 directives based operation (proper disposition of comments process, establishment of target dates, presentation of roadmap for ISO/IEC 10646 development etc.)
- SC 2 keeps strong participation from many national bodies at both WG and RG levels. SC 2 has big advantage from other standards development groups having real regional power.

Finally, he emphasized the importance of compatibility of character names and code points in SC 2 standards and asked SC 2 to ensure it.
