This document serves as a summary of the UC Berkeley Script Encoding Initiative's recent activities. The Script Encoding Initiative was established to help scholars and user communities get eligible unencoded characters and scripts proposed for inclusion in the UCS/Unicode, and to ensure that current proposals are reviewed by specialists. SEI focuses on unencoded modern minority scripts and historic scripts. SEI welcomes working with user communities and national bodies on script proposals, and email inquiries (dwarders@berkeley.edu).
