GAME PIECES to be considered for inclusion as emoji

To: UTC□
From: Jeremy Burge, Unicode Emoji Subcommittee
Date: 2016-01-08

Executive Summary

The following characters have emoji (color) presentation on at least one major platform but are not currently included in emoji-data.txt:

https://docs.google.com/spreadsheets/d/1txhi8XYKFMkCaOOFMI2z1tQkNwhzkUN-htofj-oJ1GM/edit?usp=sharing

Characters for game pieces such as chess, draughts, dice and mahjong may be suitable as emoji. That means:

A. adding the Emoji property for them to version 3.0 of emoji-data.txt, and
B. adding variation selectors for each one for text and emoji to StandardizedVariants.txt (assuming that they have default text presentation).

Proposals

1. Discuss including the following game piece characters as emoji

Characters for chess pieces, die faces, draughts (checkers) pieces and go pieces are implemented with emoji (color) presentation on Samsung devices, and are suitable for inclusion based on Emoji Selection Factor C.

Discuss whether there is support from other vendors in including these characters as emoji in future versions of the Unicode Standard.

Color images for these characters are displayed in the spreadsheet Non-emoji Characters displayed with Color Emoji Presentation.

U+2654	WHITE CHESS KING
U+2655	WHITE CHESS QUEEN
U+2656	WHITE CHESS ROOK
U+2657	WHITE CHESS BISHOP

U+2658	WHITE CHESS KNIGHT
U+2659	WHITE CHESS PAWN
U+265A	BLACK CHESS KING
U+265B	BLACK CHESS QUEEN
U+265C	BLACK CHESS ROOK
U+265D	BLACK CHESS BISHOP
U+265E	BLACK CHESS KNIGHT

U+1F02B   MAHJONG TILE BACK

3. Discuss: other characters that may be suitable for inclusion as emoji

The following are related characters. The emoji SC recommends waiting until a major vendor indicates that it want to support them, as these characters are not currently implemented with emoji (color) presentation on any major platform.
