1.

The Tulu-Tigalari Characters look small in comparison to the Latin. Will it be possible to make the letters a bit larger?

2.

There are 3 characters that look cut :

113BE, 113BF, 113C0 .

Maybe it will be a good idea to increase the line spacing if possible.

113BE	⦿	TULU-TIGALARI VOWEL SIGN VOCALIC RR
113BF	⦿	TULU-TIGALARI VOWEL SIGN VOCALIC L
113C0	⦿	TULU-TIGALARI VOWEL SIGN VOCALIC LL
113C1	⦿	<reserved>

3.

The character for CA is an alternate form that appears in the table(Fig.B). The proposal paper has the correct form with an opening loop (Fig.C). Ref. proposal, page 19 :

I am not sure if all the “Reserved” code points need to be mentioned. The following are not mentioned in the explanation to the table : **113B6, 113D9, 113E0, 113E3...113FF**
