Title: **SuperCJK , Version 10.2**
with Kangxi & HYD Data
Action: Review with CJK Extension B (R2)
Distribution: IRG Editors

Rapporteur's Note for the Version 10.2

Compared with the previous version 10.1, this version recovered 4 glyphs (Ucode=2-0FAD,2-10C0,2-6E42, and 2-7B39) which were black-box-looking in 10.1. In addition to this, the new version replaced the mapping table for HK Government character set. The other attributes remain no change.

Rapporteur's Note for the Version 10.1

This version of SuperCJK is produced based on the Editorial Report IRG N 744 dated on 2000-06-23, by IRG Technical Editor Ms.Wang Xiaoming. Up to now, CJK Extension B FCD, the major portion of SuperCJK is still under ballot. Hence this version can not reflect the disposition of WG2 to the comments on CJK Extension B FCD. The SuperCJK 10.1 and the CJK Extension B (R1) should be regarded as IRG's INTERNAL WORKING DOCUMENTS only.

The SuperCJK **10.2** contains **70,205** Ideograph records while the CJK Extension B FCD(R2) has **42,711** Ideographs. See below:

	G	T	J	K	V	H	Total
