Title : Hanyu Pinyin symbols and engineering
symbols for inclusion in ISO 10646

Status : Member Submission

Requested Action: The HKSAR Government submitted the Hong Kong Supplementary Character Set (HKSCS) to the IRG in 1999. The attached Hanyu Pinyin symbols and engineering symbols in the HKSCS have not yet been included in the ISO 10646 standard. We understand that these symbols are outside the ambit of the IRG. We wish to seek IRG's advice with regard to alternative channels for the submission of these symbols to the ISO for inclusion in the ISO 10646 standard.
