

Date: Nov. 29, 2001

ISO/IEC JTC1/SC2/WG2/IRG Ideographic Rapporteur Group

Source: TCA

Meeting: IRG#18 @ Tokyo

Title: TCA/CNS Characters for CJK Unified Ideographs Extension C

Keywords: (none)

Status: Member body's contribution

Short Description:

Proposed Conclusion/ Requested Action: to be discussed in IRG

Argument/Text of Contribution: see attachment.

TCA/CNS Characters for CJK Unified Ideographs Extension C

1. The attached hard copy¹ contained more than 14,000 ideographs that come from names of Taiwan people. We put those characters on the planes 12, 13 and 14 of CNS 11643. We did a lot of labor work to check them among the characters in super CJK 13.0 in order to minimize the duplications.
2. We'll collect ideographs from the names of fishes, chemicals, plants, addresses, etc. And we'll propose them in the future.

¹ The hard copy will be carried to the meeting room because it wasn't made as an electronic file.
