Meeting : 20th IRG Meeting, Hanoi, Vietnam
Title : Editorial Report of CJK_C characters list
Status : FYI

The first version of CJK_C characters list was distributed to IRG editors before Macau meeting.

According to editorial work schedule, IRG N922R, by July 5, 2002, most IRG editors submitted their review reports. We consolidated them and added glyphs later according to request by Japanese editors. A second version of CJK_C characters list, IRG N928, was generated on the basis of this consolidated review report and was distributed to IRG editors at the end of July.

By the beginning of October, 2002, editors from China, Japan, Singapore, HKSAR and TCA submitted their review reports on IRG N928. MacauSAR submitted her review report later. A consolidated review report was generated.

As opinion of Japanese editors, all comments of review reports should be considered unconfirmed and should be discussed by IRG editors. So we are waiting for the editorial decision at Hanoi meeting to generate next version of CJK_C characters list.
