IRG N1400 (Revision of IRG N1387)

First Draft, finalized for submission to IRG #30

Ken Lunde, Adobe Systems Incorporated (lunde@adobe.com)
January 23, 2008

The following statements, along with the table below, are intended to be included in the forthcoming Annex S revision:

- Non-cognate pairs (or triplets or quadruplets) are not unified.
- Cognate pairs (or triplets or quadruplets), meaning that they share the same readings and meanings, are unified according to the accompanying table.

	Actual Shape	
	Exact Match	**Different**
Same Abstract Shape	*Unify*	*Unify*
Different Abstract Shape		Do Not Unify
