## 1. Evidences of CJK\_D and UNC characters

In order to provide “evidences” of CJK\_D and UNC characters, Chinese editors re checked their sources.

Partial “evidences” were not found because some of the original proposers did not leave enough materials to their successors. China would like to withdraw the characters without “evidences” to reduce the workload of CJK\_D in current stage. The withdrawn characters may be proposed to the future CJK project, with enough “evidences”.

A clear list of 3,215 withdrawn China CJK\_D characters is provided to IRG#31 (IRGN1524).

## 2. Checking of glyphs of CJK+A+B+C

The Ministry of Education, Ministry of Industry and Information (previous Ministry of Information Industry), font venders and other related organizations are checking and discussing the principles of G-source characters of CJK+A+B+C. Although all fonts are available, the modification of principles may affect the fonts for publishing the next edition of ISO/IEC 10646.

Note: According to suggestions of Chinese linguists, the governmental departments are evaluating the impact of changing some glyphs from “new style” to “traditional style”. The changing will affect over 10,000 or more characters.

3. A guideline book of the coming *The Table of Normalized Chinese Characters* (規範漢字表)

For easy applying the coming *The Table of Normalized Chinese Characters* (規範漢字表, 8,800 characters), the Ministry of Education is drafting a guideline book. The book will be issued following the Table, and will be followed by the education circle, publishing industry, IT industry and other scope in China.

4. Copy right protection of digital publishing and net publishing

The General Administration of the Press and Publication and other governmental departs are drafting laws for copy right protection of digital publishing and net publishing.

5. The digital publishing, net publishing and large scale maintaining and researching of ancient books are started with sponsor of government and industry.
