The “Macao Information Systems Character Set” (MISCS) is a character set that Macao public departments use to exchange information. It is based on ISO/IEC 10646 standard plus the characters in Macao Supplementary Character Set (MSCS).

There are currently 121 characters in MSCS, and we have already submitted them to the IRG in the meeting IRG#32 in Hong Kong, China. Now, in order to provide the evidence of each character for IRG to review and approve, we have collected the usage of these characters from different department.

Thanks all IRG members for your support and effort!
