Title	Suggested Record Keeping Examples for P &P
Action	To be discussed
Distribution	IRG
Medium	Electronic

The P and P should state that the reason for decisions such as to unify should be included in a clear manner in the IRG records.

Example One.

Question from: IRGN1549_DV50_D_FromCJKC.pdf

CJK_D No.: 01045

Question: Unified to u+54F6 𐤒𐤕. Need T confirmation. (G)

Answer: Need T confirmation.

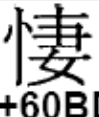

Rather than simply record the decision “G_ZFY00754,TC-454D unified with U+54F6”, should be recorded including both glyphs and reasoning:-

𐤒𐤕 G_ZFY00754,TC-454D unified with U+54F6 𐤒𐤕 because 𐤒𐤕

unifiable to 𐤒𐤕.

Example 2(from IRGN1552_DV51_D_Unify.pdf).

Rather than just “TC-5721 unified with U+60BD”, should be recorded as either:-

 02997 TC-5721	 U+60BD
---	---

unified because U+59BB 婁 unifiable to 婁

cf ISO/IEC 10646 Annex S, page 98 婁婁

or

 02997 TC-5721	 U+60BD
---	---

unified because 婁 unifiable to 婁

cf. ISO/IEC 10646 Annex S, page 98 婁婁
