Date: 2009-11-18

<p>ISO/IEC JTC1/SC2/WG2/ Ideographic Rapporteur Group</p>

Source / Contribution Identifier: Korea (Kang Mi-young, Korean Mirror Committee of IRG_secretary geumnanghwa@gmail.com)

Meeting: IRG#33 @ Da Nang, Vietnam

Title: R.O.Korea Activity Report (Nov. 2009)

Keywords: (none)

Position: Korea National Body

Short Description: This paper summarizes activities of Korean Mirror Committee of IRG

Proposed Conclusion / Requested Action: None

Arguments / Text of Contribution: (none)

IRG R.O.Korea Activity Report

1. ISO 10646 2nd ed CD Review

The Korean Mirror Committee of IRG collaborated with the Korean Mirror Committee of SC2 on ISO 10646 2nd ed CD review. The two committees reviewed Hangeul and Korean Hanja related parts and submitted review report (WG2 N3686-K = K1822) to the WG2 #55 meeting in Tokyo.

2. Implementing Korean IDS(Ideographic Characters Searching) system

The Korean Mirror Committee of IRG is now preparing UNIX-based IDS system as a preliminary work for IDS system implemented with graphic user interface. The committee is hoping the system will be helpful for the future reviewing process of Korean Hanja characters.

3. Study on the Korean personal name Hanja characters.

Many Korean personal name Hanja characters (KpnHc) are neither in UCS (Universal Multiple-Octet Coded Character Set) nor used in a uniformed way. Thus many Korean people find it difficult to type their names on computer. At the

beginning of 2009, the Ministry of Public Administration and Security (KpnHc used in the residence register) and the Supreme Court (KpnHc used in the family relation register) of Korea came to an agreement as unifying KpnHc. The Korean Mirror Committee of IRG is studying on those KpnHc in order that they can be standardized in the near future.
