

Title: Font specification for IRG multicolumn code chart: Japan

Date: 2010-3-3

Source: Japan

Action required: FYI

Distribution:

Japan has sent CD-ROMs including 6-ttf files for J-source characters to IRG technical editor on Jan. 15, 2010.

For BMP characters (CJK main block and CJK extension A):

For J0 sources

Font Name: "Rg Heisei W3"

For J1, JA, J3, J3A, J4 in BMP

FontName: "Japan BMP Supplement"

For ARIB (u+9fc4, u+9fc5 and u+9fc6)

FontName: "Japan ARIB-K"

Note that u+9fc6 is encoded as u+fa6d.

For SIP characters (CJK extension B, C, D):

CJK unified ideographs extension B

FontName: "Japan B"

With exception of u+20b9f is included in "Rg Heisei W3"

CJK unified ideographs extension C

FontName: "Japan C 0903"

Note that this is produced as a BMP font and requires table mapping to the real coding of SIP. Mapping table is associated in MS-excel format.

CJK unified ideographs extension D

FontName: "Japan UNC 0903"
