## **IRG R.O.Korea Activity Report**

### **1. ISO 10646 2<sup>nd</sup> ed FCD Review**

The Korean Mirror Committee of IRG collaborated with the Korean Mirror Committee of SC2 on ISO 10646 2nd ed FCD review. The two committees are reviewing Hangeul and Korean Hanja related parts and submitted the review report to the WG2 #56 meeting in Mountain View.

### **2. Review on multi-column CJK ideographic code charts**

According to the resolution of M33.6 on IRG#33 in Danang, Korean Mirror Committee of IRG reviewed the multi-column code chart of BMP and submitted the review comments. The committee also reviewed Ext. B and Ext. C as well.

### **3. Retrieval of missing documents for Korean source references K2~K5**

The Korean Mirror Committee of IRG searched for the document archives for the missing source reference documents K2~K5 in ISO 10646. Our committee found some documents related to K2, K3, K4 and K5, but not exactly their source. Korea is in the process of preparing national standards for K2 to K5. The result of this work will be presented at WG2 #57 in Busan.
