Title: ISO/IEC 10646: CJK Extension C review for 3rd edition of FDIS 10646
Source: ISO/IEC 10646 Project Editor
Project: JTC1 02.10646
Status: For review by IRG
Date: 2010-10-16
Distribution: IRG
Reference:
Medium:

Summary: This document is an aid of review for CJK Extension C being prepared for the 3rd edition. It includes a short list of known issues and full charts with previous and current versions of this block.

During IRG#34, the project editor had asked for new fonts for Extension C for the G and T sources with encoding orders either identical to their UCS encoding or at least translated by a common value. This was required in order to make complex mapping unnecessary in the charting tool.

Accordingly, two new fonts were provided for the G and T sources. The editor could not find any difference for the G source characters (although he noted the font contained more characters than implied by its source values). However for the T sources, 8 differences were found which indicates a significant revision and need for additional review by other experts.

Known issues:
