Title:	Proposal of new ad-hoc group for preliminary study of Old Hanzi encoding architecture.
Actions required:	For consideration at IRG #35
Distribution:	IRG Members and Old Hanzi Experts
Medium :	Electronic

Considering the long cleaning process of the database in Old Hanzi ad-hoc, Japan national body proposes to form a preliminary study group to discuss the encoding architecture of Old Hanzi for the experts of the character encoding and information technology.

This proposal is already agreed by the secretary of Old Hanzi ad-hoc group. If it is approved to form a new group for the preliminary study of Old Hanzi encoding architecture, Japan national body nominates Kobayashi Tatsuo (the previous chair of SC2) as the leading member. Of course, anybody who have any idea about, or who are interested in the encoding architecture for Old Hanzi are welcomed to join.
