

Notes to Corrigendum

At IRG #35 held in the Macao SAR, China in November 2010, the CJK Editorial Group discussed a number of Ext B characters and concluded that the following information on individual characters should be compiled for future reference.

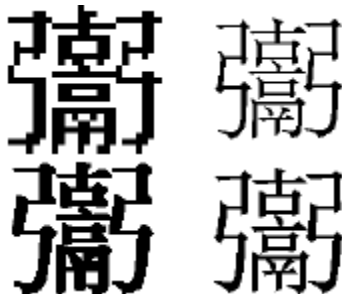

Unicode	UCS 2003 Glyph	IRG N1707 Glyph	SuperCJK Glyph
2382C	 UCS-2382C	2382C 木 75.18   TF-6951 UCS-2382C	
The current glyph (i.e. T-glyph) is preferred, although it is different from the UCS glyph.			

23EE4	 UCS-23EE4	23EE4 水 85.11   GKX-0648.09 T7-243F  UCS-23EE4	
The current glyphs (i.e. G-glyph and T-glyph) remain unchanged. This is a case of mis-unification in SuperCJK.			
24369	 UCS-24369	24369 火 86.12   TF-5024 UCS-24369	
The current glyph (i.e. T-glyph) is preferred, although it is different from the UCS glyph.			

27555	 UCS-27555	27555 虫 142.17   GKX-1103.29 T5-7649  UCS-27555	 
The current G-glyph remains unchanged, although it is different from the UCS glyph.			
27B1F	 UCS-27B1F	27B1F 言 149.12   GHZ-64018.09 T7-5035  UCS-27B1F	 
The current G-glyph remains unchanged because it is a correct glyph.			

27D41	 UCS-27D41	27D41 貝 154.4   TF-385F UCS-27D41	 
The current glyph (i.e. T-glyph) remains unchanged. It is noted that the UCS glyph is wrong.			
28B75	 UCS-28B75	28B75 金 167.13   TF-686D UCS-28B75	 
The current glyph (i.e. T-glyph) is preferred, although it is different from the UCS glyph.			

293FB	<div>𪛗</div> <div>UCS-293FB</div>	<div>293FB</div> <div>𪛗</div> <div>章 178.20</div> <div>𪛗</div> <div>GHZ-74512.13</div> <div>𪛗</div> <div>T5-7C22</div> <div>𪛗</div> <div>UCS-293FB</div>	<div>𪛗</div> <div>𪛗</div> <div>𪛗</div> <div>𪛗</div>
<div>The current T-glyph remains unchanged, although it is different from the UCS glyph (i.e. unified). Yet this is an <u>exception</u> to the unification rules.</div>			
29450	<div>𪛗</div> <div>UCS-29450</div>	<div>29450</div> <div>𪛗</div> <div>頁 181.3</div> <div>𪛗</div> <div>GKX-1399.08</div> <div>𪛗</div> <div>T5-3D4A</div> <div>𪛗</div> <div>UCS-29450</div>	<div>𪛗</div> <div>𪛗</div> <div>𪛗</div> <div>𪛗</div>
<div>The current glyphs (i.e. G-glyph and T-glyph) are preferred, although they are different from the UCS glyph (i.e. unified). It is noted that the UCS glyph is the glyph shown in the <i>Kangxi Dictionary</i>.</div>			

29C52	 UCS-29C52	29C52 𪗇 193.12 T7-5666 UCS-29C52	
The current glyph (i.e. T-glyph) is preferred, although it is different from the UCS glyph (i.e. unified).			
2A0B8	 UCS-2A0B8	2A0B8 𪗇 196.9 GKX-1494.15 T7-523A  UCS-2A0B8	
TCA prefers to keep its current glyph and the G-glyph and T-glyph are thus unified. Yet TCA will further check with its experts.
