

Universal Multiple-Octet Coded Character Set UCS

ISO/IEC JTC1/SC2/WG2/IRG N1745

Date: 2010-11-11

Source:	CJK editorial group
Title:	CJK Editorial Group Report
Meeting:	IRG#35, Macao SAR, China
Status :	To be Approved by IRG plenary
Actions required	To be followed by IRG members
Distribution:	IRG
Medium :	Electronic
Page:	6
Appendix:	1

Editors from China, Japan, R.O.Korea, TCA, Hong Kong SAR, Macao SAR, US and Unicode Consortium met at IRG#35. The editors discussed the following issues:

1. Glyphs and sources of U+05FF9, U+225D6 and U+2F89F, and fonts

This issue was discussed and decided among WG2 project editor and IRG editors through email before IRG#35. The decision is recorded in this report for information.

Related IRG members: China and TCA

The glyphs and sources of U+05FF9, U+225D6 and U+2F89F are already reflected in the FDIS of UCS 2nd and 3rd editions as follows:

- U+05FF9 𐄑
 - G Source: GKX-0378.29, new (found in UniHan)
 - T source: T5-2438, moved from 2F89F
- U+225D6 𐄑
 - G Source: G3-5137, moved from 5FF9 (GKX-0379.03 removed)
 - T Source: T3-2623, moved from 5FF9 (new T source)
- U+2F89F 𐄑
 - T source removed (moved to 5FF9)

The fonts for U+255D6 and U+2979F of UCS 3rd edition were confirmed correct by TCA, but the fonts for U+26DBC and U+2855B need more checking by TCA.

2. Format of CJK multi-column code charts of UCS 3rd edition

The editors agreed that the format of CJK multi-column code charts of UCS 3rd edition would be as follows:

4E00 CJK Unified Ideographs 4E27

HEX	C	J	K	V	HEX	C	J	K	V			
4E00 - 1.0	一	一	一	一	一	且	且	且	且	且		
	G0-523B	HB1-A440	T1-4421	J0-306C	K0-6C69	V1-4A21	G0-4752	HB1-A542	T1-4562	J0-336E	K0-7326	V1-4A2D
4E01 - 1.1	丁	丁	丁	丁	丁	丕	丕	丕	丕	丕		
	G0-3621	HB1-A442	T1-4423	J0-437A	K0-6F4B	V1-4A22	G0-5827	HB1-A541	T1-4561	J0-5023	K0-5D60	V1-4A2E
4E02 - 1.1	丂		丂	丂		世	世	世	世	世		
	G5-3021		T4-2126	J1-3021		G0-4A40	HB1-A540	T1-4560	J0-4024	K0-6126	V1-4A2F	
4E03 - 1.1	七	七	七	七	七	卅		卅	卅			
	G0-465F	HB1-A443	T1-4424	J0-3C37	K0-7652	V1-4A23	GE-2124		T4-2155	J0-5242		
4E04 - 1.1	丄	丄	丄	丄		丘	丘	丘	丘	丘		
	GE-2121	H-9EB3	T3-2126	J1-3022		G0-4770	HB1-A543	T1-4563	J0-3596	K0-4E78	V1-4A30	
4E05 - 1.1	丅		丅	丅		丙	丙	丙	丙	丙

3. CJK_E evidences

References:

- IRGN1737 (Japan): Comment on IRG N1519 part 1, 2, 3 and 4, Chinese evidences for CJK Unified Ideographs Extension E
- IRGN1716: ZJW mappings, and
 - Feedback from Japan
 - China's quick response to Japan's feedback
- IRGN1739: Macao's evidences for CJK_E

China will correct the CJK_E evidences in IRGN1519 according to comments in IRGN1737, by 2011-04-04.

ZJW00209 𠄎 will be removed from CJK_E for no source.

China will try to find “real evidences” for ZJW0483.13 𠄎 ,

ZJW0622.12 浴 and ZJW0910.16 叢 before IRG#36.

The source recording syntax for ZJW characters was suggested to be GJW-xxxx.xxx. China and Japan will create a new mapping table.

China will submit “Examples showing that the heading characters are used in different publications (not only in 殷周金文集成引得)” by 2011-04-04. (It should have been submitted by 2010-10-08 according to IRG#34 editorial meeting.)

For human privacy issue, the evidences of 29 Macao characters are unable to be provided in written form but were shown at the meeting and were accepted, evidences of the other 39 Macao characters are provided in IRGN1739. Totally 68 characters with evidences were provided to the meeting, 65 of them were accepted for CJK_E discussion while the others are already encoded. The remained 2 characters from Macao University may be accepted if evidences are provided by 2011-04-04. (Note: MAC00122 州 was found already encoded at U+2A8CF in CJK_C, thus it should be removed from CJK_E.)

4. CJK_B multi-column code charts review

References:

- Consolidated comments on IRGN1707 (CJK_B multi-column code charts), and Comments from US/Unicode, and
 - Feedbacks from China, ROK, Vietnam and HKSAR
 - IRGN1738 GKK source issues (Japan)
- IRGN1743 More unification examples and exceptions
- IRGN1748 Revised CJK_B code charts (revised IRGN1707)

4.1 G sources

China is requested to search for more detailed source information of GHC characters as possible. China is also required to search for real source of U+03ABF which is now marked GHZ but actually not found in HZ, or the G source will be removed.

4.2 IRGN1707 Comments

All comments to IRGN1707 were reviewed and discussed. The related IRG members were required to follow the decisions made at the

meeting, i.e.:

- Some fonts will be corrected (IRGN1745 Appendix)
- Some fonts will be modified for quality promotion (IRGN1745 Appendix)
- Others (IRGN1745 Appendix)

Vietnam is required to answer questions recorded in the “Minutes of Discussion at IRG#35” ASAP because their delegation was absent at the meeting.

All related IRG members are required to follow the Da Nang decisions mentioned in “Japanese Comment Type 1” listed in the “Consolidated Comments to IRGN1707”, unless there are newer decisions recorded in the “Minutes of Discussion at IRG#35”.

A list of more unification examples and unification exceptions recorded in the “Minutes of Discussion at IRG#35” will be submitted by Mr. Peter Cheng to Mr. Kawabata Taichi for recording (IRGN1743).

IRG is requested to submit a “corrigendum” to WG2 for wrong glyphs in CJK_B of UCS 2003, recorded and submitted by Mr. Peter Cheng, by 2010-11-20. It is requested to be added to UCS 3rd edition. (IRGN1744)

4.3 GKX glyphs/fonts

For the 4 issues raised in IRGN1738, the editorial group decided to act as follows:

- Issue 1: No problem of font/glyph, no response.
- Issue 2: “WG2 resolved to add note to the definition of the source. This type of characters are categorized in "Japan comment-(2) GKX source issues".

If they are unifiable change, there is no problem. In case of non-unifiable, move to ④.”

- Issue 3: Keep correct font/glyph, add note to corrigendum.
- Issue 4: If the glyph in UCS 2003 is correct, the G glyph in the planned UCS 3rd edition should be reverted to the shape in UCS 2003. Depending on whether the shape is identical to KX, follow up issue 1 or issue 2.

If glyph of the UCS 2003 is wrong, the G glyph in the planned UCS 3rd edition should be corrected with note to corrigendum.

4.4 Fonts update

All delta fonts (with different file names and family names) of CJK_B should be submitted to the WG2 project editor and IRG members' chief editors by 2011-02-20 (Sunday).

4.5 2nd round review of CJK_B

IRGN1748 (Revised IRGN1707) will be used for the 2nd round of review. (Note: IRGN1748 shows minor changes of fonts and changed display of code charts. The new code charts with revisions agreed at IRG#35 and IRG#36 will be generated after IRG#36.)

The IRG members are divided into 4 groups for CJK_B multi-column code charts review, members in each group shall check all characters assigned:

- Group 1: China and Vietnam for part 2
- Group 2: TCA and US/Unicode for part 3
- Group 3: Japan and MacaoSAR for part 4
- Group 4: ROK and HKSARG for part 1
 - Part 1: U+20000~U+229B5, 10,678 characters
 - Part 2: U+229B6~U+2536B, 10,678 characters
 - Part 3: U+2536C~U+27D21, 10,678 characters
 - Part 4: U+27D22~U+2A6D6, 10677 characters

The Schedule of the 2nd round of review is as below:

- 2011-02-25: IRG members' chief editors submit comments to the IRG Chief Editor and members' chief editors.
- 2011-03-11: The IRG Chief Editor distributes consolidated comments (draft) to members' chief editors for confirmation.
- 2011-03-18: IRG members' chief editors submit confirmation/feedback to the IRG Chief Editor.
- 2011-03-25: The IRG Chief Editor distributes consolidated comments to members' chief editors.
- 2011-04-04: IRG members' chief editors submit written responses (explanations, etc.) to IRG Rapporteur for recording.
- 2011-04-11: IRG#36 discussion.

The comments should be word files in form as below:

Code	Glyph in UCS 2003	Glyph in IRGN1748	Comment type	Comment	Note
------	-------------------	-------------------	--------------	---------	------

XXXX	(image)	(image)	Unification Or xxxxxxx	xxxxxx	(If needed)

(Note: The comments raised in 1st round of review should not be mentioned in the 2nd round of review.)

5. Fonts for CJK_C multi-column code charts

Reference:

- IRGN1720: Review of Extension C font (Michel Suignard)
 - IRGN 1720 check (Japan)

There are a number of differences among CJK_C code charts of UCS 2003 AMD5, UCS 3rd edition CD and the latest fonts provided by TCA. TCA is required to review all code charts of UCS 3rd edition CD to find all font errors and submit upgraded fonts with a clear list to the WG2 project editor by 2010-12-31.

All IRG members are required to provide lists of font changes when they are submitting upgraded fonts for any CJK blocks.

All submitted fonts should be in UCS codes.

Appendix: Minutes (recorded by Mr. Peter Cheng, a zip file)

US/Unicode Comments

CJK Editorial Group Discussion of US/Unicode's Review Findings

Code Point	Conclusion
A. Major Issues	
U+23085	𠂇 U+23085 T missing (see 𠂇 U+23086) Source is correct but glyph is missing T to provide the font
U+23086	𠂇 U+23086 T glyph wrong (see 𠂇 U+23085) Glyph is wrong. T to change font
U+24503	𠂇 U+24503 UCS = CNS 1992; T = CNS 2007 (same as 𠂇 U+2450D) T to change back
U+2462C	𠂇 U+2462C UCS = CNS 1992; T = CNS 2007 (same as 𠂇 U+24631) T to change back
U+24BA1	𠂇 U+24BA1 UCS = CNS 1992; T = CNS 2007 (same as 𠂇 U+24BA4) T to change back
U+24C36	𠂇 U+24C36 G & UCS = CNS 1992; T = CNS 2007 (same as 𠂇 U+24C5 cp. 𠂇 U+26980) No change
U+25149	𠂇 U+25149 UCS = CNS 1992; T = CNS 2007 (same as 𠂇 U+25155) T to change back
B. Other Issues	
U+229CD	𠂇 U+229CD UCS = CNS 1992; T = CNS 2007 T to change back
U+229FF	𠂇 U+229FF UCS uses 入, but G and T use “人” (unifiable difference; see SuperCJK14) Unified
U+22ABE	𠂇 U+22ABE (unifiable difference?; see SuperCJK14) Confirmed unifiable
U+22AC2	𠂇 U+22AC2 UCS = CNS 1992; T = CNS 2007; (T: “P” stroke, UCS: “HP”) Not discussed. T to follow up. Postponed

US/Unicode Comments

U+22BA3	<p>掣 U+22BA3 G includes extra stroke (unifiable difference?; see SuperCJK14)</p> <p>Unified</p>
U+22BC8	<p>搨 U+22BC8 G and T are different from UCS (unifiable difference?; see SuperCJK14)</p> <p>Unified</p>
U+22BED	<p>搨 U+22BED G and T are different from UCS (unifiable difference?; see SuperCJK14)</p> <p>Font issue, no change.</p>

Japan comments:

Comments type 1 and 2 of Japan are copied here:

(1) Problems regarding conclusions in Da Nang meeting (IRG N1632)

I (IRG Chief Editor) copied them here to remind all people that these problems should have been resolved.

IRG#35 Conclusion:

Vietnam will be asked to pay attention to these comments and try their best to fix the problem.

(2) GKX source issues

These comments are related to G_KX glyphs/fonts only, I'm (IRG Chief Editor) asking Chinese editors to review them and report to IRG#35.

IRG#35 Conclusion:

Member bodies are required to study this paper and follow the decisions made at the IRG Da Nang Meeting, unless there are new conclusions made at the IRG Macao Meeting.

Japan Comments

(1) Problems regarding conclusions in DaNang meeting (IRG N1632)

Problems in this part is already concluded in DaNang meeting and recorded in IRG N1632, but not processed in IRG N1707.

(2) GKX source issues

The G source reference has a prefix GKX-, meaning this particular glyph is taken from the Kangxi dictionary. However, the current G glyph is different from that on Kangxi.
