HKSAR's Comments on CJK Extension E v8.1

The Hong Kong Special Administrative Region has reviewed the Main Block of CJK Extension E v8.1 (IRG N1878) and has some points to raise concerning the glyph 03679.

Background information on 03679

CJK Ext E v8.1 (IRGN1878):

煬	0499.061						煬
03679	文						V04-4A55
	11	1					

HKSAR's Feedback to CJK Ext E v8.0 (IRGN1877):

煬	0477.181	煬	Radical
03679	文	V04-4A55	
	11	1	

Vietnam's feedback to CJK Ext E v8.0 (IRGN1877):

03679	煬 V04-4A55	The radical should be 文 (U+6587). Can make reference to V-glyphs with a similar structure:	Radical	Radical is "日". Because "易" (U+6613) is meaning of glyph.
-------	---------------	--	---------	---

HKSAR's comments

- The attributes of 03679 set out in the Main Block are incorrect:
 - If the radical is 文 (U+6587) as proposed by HKSAR, then the KX code, SC and FS should be 0477.181, 11 and 1 respectively;
 - If the radical is 日 (U+65E5) as suggested by Vietnam, then the KX code, SC and FS should be 0499.061, 10 and 4 respectively.
- Vietnam's explanation of the choice of 日 (U+65E5) as the radical for 03679 brings into question the consistency in its choices of radicals for glyphs with a similar structure, such as 03535 and 08407. Should the radicals of these glyphs be reviewed and revised?

We are looking forward to IRG members consider the inclusion of those characters in CJK Ext. E in this meeting. Any further information needed, please contact MSAR editors.
