#### 1. Attending SC2#18 and WG2#60

Chinese delegation attended the WG2#60 in Chiang Mai in October 2012 for CJK issues and proposals on Nushu (女書) and ancient scripts. Chinese delegation also attended SC2#18.

#### 2. Submission of CJK\_F

China submitted 1385 characters including 1118 Square Zhuang Script (方塊壯字) to IRG for CJK\_F candidates. This number is apparently smaller than that estimated number of 5000 more in IRGN1874.

China is considering proposing more characters to future CJK extensions from production of the Project “Chinese Characters Repertoire” (中華字庫).

Besides, the characters used in local history books collected by the National Library of China will be rechecked. (See also IRGN1467)
