| Meeting: | IRG#41, Tokyo |
| Status : | Unconfirmed |
| Actions required | To be confirmed by IRG editors |

| Appendix: | |

It is found that 92 G source characters in CJK_Fv1.0 (or in CJK_F1 and F2 later) are not in the typeface of Song style (宋體) which is required by IRG PnP. China redesigned these fonts and requests IRG to confirm that the new fonts can be used in next version of CJK_F1 and F2 (including M sets and D sets).
