Status: National Body Position, Rep. of KOREA
Subject: Introduction of KR proposal and a list of books/docs containing
       evidences for Working Set 2015 submission

1. Introduction of KR proposal for IRG Working Set 2015

- In Korea, Chinese characters, Hanja, has been used for about 2,000 years
and, therefore, different kinds of books and documents have been produced.

- Source of submitted characters include: religious documents of Buddism
  and Confucianism, literature, collections of individual's works,
  historical documents such as Annals of the Joseon Dynasty (朝鮮 王朝
  實錄), documents describing rituals of royal family, maps, documents of
  daily life such as letters, documents used in courts, dictionaries,
  documents related with law, medicine, science

- To make it easier for researchers to use these books and documents for
  research and translation, starting at year 2000, texts of these books and
  documents have been digitized. The output of digitization of them is
  managed at 韓國 歷史 統合 System (http://www.koreanhistory.or.kr/).
    Detailed information is shown in Appendix 1.

- During digitization process, many Hanja characters not encoded in UCS (=
  ISO/IEC 10646) have been found. A collection of 8328 newly-found Hanja
  charcaters can be searched at http://www.koreanhistory.or.kr/newchar/.
  Each of these characters were assigned a number (KCnnnnn). Detailed

information can be found in Appendix 2.

- Out of 8328 newly-found Hanja charcaters, 1973 characters with relatively good evidences were submitted for IRG Extension F (= F1 + F2) in 2012 (see IRG N1887 ROK_ExtF)
- Now 489 newly-found Hanja charcaters with relatively good evidences were submitted for IRG Working Set 2015.

2. A list of books/documents containing evidences for Hanja characters submitted for IRG Working Set 2015

- The books/documentss are listed under each library/institute where they are held.
- See Appendix 3 for detailed information.
