

Title: Discussion Records about Unification in IRG N2088 (CJK F2 v4.0)
Source: suzuki toshiya
Type: individual contribution
Date: 2015/11/13
Action: Review by IRG and WG2 experts

NOTE: this document was originally submitted as a feedback to IRG N2088, CJK F2 version 4.0, on 2015/11/14. Now it is submitted as a new document IRG N2129.

During CJK F (F1 & F2) development, experts decided some new unifications and disunifications those are not found in existing IWDS (the latest official version is IRGN2019 (UCV) and IRGN2020 (NUC)). Some of them are decided to be referred as general rules, and others are decided as exceptional decisions. As resources to update IWDS to include the decisions in CJK F development, I collected the discussion records about the unifications from IRG N2088 attribute Excel file, and attached the glyph images of the discussed characters. There are 3 lists;

- CJK F1 characters those IRG have discussed about the unification with other characters (and maybe decided to be disunified).
- CJK F2 characters those IRG have discussed about the unification with other characters (and maybe decided to be disunified).
- Unified characters those IRG have discussed about the unification with other characters (and maybe decided to be unified).

I wish if they are useful to pick some generic rules to add next version of UCV and NUC.

(end of document)

**Discussion about unifications for CJK F1 characters,
taken from IRG N2088 Attribute Excel file**
