Title: Republic of Korea Activity Report(IRG #46 @ Beijing)

Date: 2016. 5. 18.

Status: Member body contribution

Short Description: This paper summarizes activities of Korean IRG members

1. Korea national body activities

Korea national body members reviewed comments, glyphs, evidences and 489 characters on CJK Working Set 2015.v.1.1. Many glyphs and evidences are modified or updated. But in some cases, we have to withdraw submitted characters because we cannot find any clear evidences that the glyph in the evidence and the image we submitted indicate the same character.

And we made an effort to get new charaters that is not included in the Unicode and Korean standards. We are now investigating some characters in our traditional annals.

2. Change in Situation

KATS that is in charge of ISO business of ROK national body divided their business into two parts. KATS will carry out the business related to approve national body but the rest working level business like holding IRG meetings, managing committee of ROK will be carried out by RRA(National Radio Research Agency). So the IRG #48 meeting in ROK will be held by RRA instead of KATS.
