Title: UK Request to Rename UK Source References for IRG Working Set 2015

Source: Andrew West

Status: Member Body Contribution

Action: For consideration by IRG

Date: 2017-08-11

The UK submission for WS2015 (IRGN2107) uses UTC source references in the range UTC-01313 through UTC-02968, which is the same format (UTC-*nnnnn*) as the source references used for the UTC submission for WS2015 (IRGN2091). The lack of distinction between UK and UTC source references causes confusion, both inside IRG and among the wider public, and makes it difficult for reviewers and others to determine whether a particular character was submitted by UTC or UK.

For WS2017 the UK submission will use source references in the format UK-*1nnnn*, in order to clearly distinguish UK submitted characters and UTC submitted characters.

To eliminate confusion over source references when WS2015 is submitted to WG2, we request that the source references for characters submitted by the UK be changed to use a "UK-" prefix instead of the "UTC-" prefix. In order to easily map back to the original UTC source references, the numeric part of the source reference will remain unchanged. For example, the original UK source reference "UTC-01313" will be changed to "UK-01313". After this change is made, "UK-*0nnnn*" will identify UK characters submitted to WS2015, and "UK-*1nnnn*" will identify UK characters submitted to WS2017.

A mapping table for old and new source references is provided below. We can provide renamed bitmap glyphs if required.

Sequence Number	Old Source Ref.	New Source Ref.
00001	UTC-02764	UK-02764
