

Title: IRGN2386 Compiled list of new/modified UCV for update

Author: Henry Chan

Type: Individual Contribution

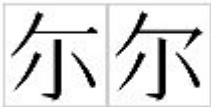

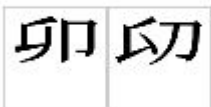

Pages: 3

Date: 2019/06/19

Several additions to the UCV were discussed for WS2015 (IRG #46 - 50). The following list is compiled based on IRGN2308 (IRG WS2015 v6) (Attributes) Discussion Record.

Note: During IRG 51-52 there is general consensus that unification examples not be added to UCV if they are unlikely to occur for other characters in unencoded repositories. Therefore, these uncommon variations have been marked with double asterick (**) for those cases.

S/N	Discussion Record	Suggested UCV
01638	ivs to U+3B30, add ucv, sc 15, irg50. Radical should be 貝 #154, SC14, FS2, irg48.	N/A Wrong serial number, comment on IVS to U+3B30 belongs to 01633.
01633	ivs to U+3B30, add ucv, irg50. Change IDS from 𠂔日? to 𠂔日𠂔ノ, irg48.	Modify UCV#173 from:  to 
01989	ivs to U+3CFC, ucv, irg50.	Add new UCV 或 = 𠂔
02513	unified to U+24B40, add to ucv, irg48.	Add new UCV: 
01522	unified to U+230A2, add to UCV, irg48.	Add new UCV:  (Suggest not to add, such example is not common)
01529	ivd to U+230B6, add ucv, irg50.	Add new UCV:  (Suggest not to add, such example is not common)

01534	ivd to U+65B2 or U+65B5, add ucv, irg50.	Add new UCV: 
02321	ivs to U+7234, ucv, irg50. sc 10, irg47.	Add new UCV 或 = <input type="checkbox"/>
05072	unified to 29CAA, add ucv, irg50.	Modify UCV: <div> 232 · unifiable 尔尔  </div> to <div> 232 · unifiable 尔尔  </div>
01869	ivs to U+23AD8, add ucv, irg50.	Add new UCV <input type="checkbox"/> = 卵
01952	U+23D0E, add to ucv and ivd, irg48.	Add new UCV  = 𪛗 ** (Suggest not to add, such example is not common)
01949	U+6C89(沉), add to ucv and ivd, irg49.	Already in UCV rule #119a
02491	unified to U+74A3, add ucv, irg50.	Add new UCV 幾 = <input type="checkbox"/>
02551	ivs to U+7559, add ucv, irg50.	Modify UCV: <div> 39 · unifiable 𪛗𪛗  </div> to <div> 39 · unifiable 𪛗𪛗  </div>

02595	unified to U+7595, add ucv, irg50.	Add new UCV 久 = 久
02204	unification confirmed, reference UCV268-269, irg47. unified by U+24261, irg46.	<p>Modify UCV from:</p> <div> <div>268 · unifiable 𪗇𪗇𪗇</div> <div>269 · unifiable 𪗈𪗈</div> </div> <p>to</p> <div>268 · unifiable 𪗇𪗇𪗈</div>
02179	unified to U+241C6, add to UCV only when cognate, irg48.	<p>Add new UCV 回 = 回**</p> <p>(Suggest not to add, such example is not common)</p>
01859	unified to U+6BC0 毀, add to UCV, irg48.	Already UCV #89
02042	unified to U+23D8F, add to UCV, irg48. evidence of actual usage temporarily accepted, irg46.	Already UCV #389

Title: Feedback to IRG N2386

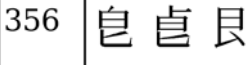

Source: suzuki toshiya

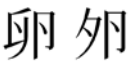

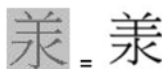

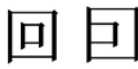

Date: 2019-10-19

Because IWDS technical editor has been too busy to prepare IRGN2387 (UCV list) and 2388 (NUCV list) by IRG#53, I tried to draft them with the generous assistance by Eiso Chan, Henry Chan and Taichi Kawabata. This document summarizes the change from the last official release to the draft.

1. Proposed Disposition for IRGN2386.

To incorporate new UCVs proposed by IRGN2386, briefly I checked the latest CJK G chart and the correction to be reflected, and propose following dispositions.

WS2015 seq, glyph name	Coded in CJK G v8.0?	Change proposed by IRGN2386	Changes in IRGN2387 Draft
01633 USAT-09518	N/A (unified)	Extend UCV#173  to 	Agree
01989 GHZR-31510.09	N/A (unified)	New UCV 	Agree, added as UCV#425
02513 GHZR-31526.14	N/A (unified)	New UCV 	Add as an example for UCV#149a (currently no example) 
01522 GHZR-42171.02	N/A (unified)	New UCV 	UCV#356 would work for this. 
01529 GHZR-42174.02	N/A (unified)	New UCV 	Agree, added as UCV#426.
01534 GHZR-42174.28	N/A (unified)	New UCV 	Extend UCV#173 
02321 GHZR-42184.13	N/A (unified)	New UCV 	Agree, see above for 01989.

05072 GHZR-84720.02	N/A (unified)	Extend UCV#232  to 	Agree, extended.
01869 USAT-10202	N/A (unified)	New UCV 	Agree, added new UCV#427.
01952 T13-2C52	N/A (unified)	New UCV 	Agree, added new UCV#428.
01949 T13-2C53	N/A (unified)	(no change proposed)	
02491 T13-2E2E	N/A (unified)	New UCV 	Agree, added new UCV#429.
02551 T13-2E40	N/A (unified)	Extend UCV#39  to 	Agree, extend UCV#39.
02595 T13-2E4E	N/A (unified)	New UCV 	Agree, added new UCV#430.
02204 UK-01462	N/A (unified)	Merge UCV#268 and 269, and extend.   	Agree, extend UCV#268.
02179 UK-02651	N/A (unified)	New UCV 	Agree, added new UCV#431.
01859 UTC-01024	N/A (unified)	(no change proposed)	
02042 UTC-01244	N/A (unified)	(no change proposed)	

2. Additional changes which are not proposed by IRGN2386

2.1. NUCV#405 (父 and 支) is moved to UCV#405.

Checking WS2017 review system, there is a set of the decisions of the unification of 父 and 支: WS2017#01539 (UK-10072), #07071 (USAT-07071), #02721 (USAT-06713), #01519 (UK-10059), #2505 (USAT-06773), etc. So I moved NUCV#405 to UCV#405.

2.2. NUCV#401 (兎 and 奧) should be moved to UCV#401?

In IRGN2332, Ming Fan proposed several updates of UCV/NUCV rules, and it was discussed in IRG#51 at Hanoi. Among them, the proposal moving NUCV#401 to UCV#401 was supported by the detailed feedback from Eiso Chan. In the discussion, I supported the update of (N)UCV#401 (if my memory is not broken, I have not supported other updates).

However, IRG#51 Misc Editorial Report (IRGN2329) seems to slip the recording of the discussion about IRGN2332. I hope the attendance of IRG#51 can reconfirm how to handle NUCV#401.

SAT Feedback to “Compiled list of new/modified UCV for update” (IRGN2386)

Date: 2019-10-21

We have found a several additional UCV candidates that were discussed at IRG #49, but separately recorded from the final IRGN2308 attribute data, which the original “Compiled list of new/modified UCV for update” is based on. They are retrieved from the IRGN2263 discussion record on Henry Chan’s review (Part 4) on WS2015 v4.0 (IRGN2223).

Henry’s Proposal (excerpt)	Discussion Record	Possible UCV
Suggest to add two new UCVs: 𠂔 = 𠂔𠂔𠂔 and 𠂔 = 𠂔𠂔𠂔	𠂔 unified to 𠂔𠂔𠂔 𠂔 disunified to 𠂔𠂔𠂔	𠂔 / 𠂔𠂔𠂔
Propose to add new (N)UCV Rule 奇 = 奇	奇 unified to 奇 in the future, the encoded characters need be separated	奇 / 奇 * Included as UCV #424 as of IRGN2387 Draft 2019/10/19
Refer to the unification of 𠂔 (U+8638) And U+FA9D to U+77A7	unified to 𠂔 in the future	𠂔 / 𠂔
Unification of 𠂔 and 𠂔	𠂔 unified to 𠂔	𠂔 / 𠂔 * Not a rule?
