Subject: ROK Activity Report @ IRG #57 on Online Meeting by ZOOM

1. CJK Working Set 2021 Submission

ROK collected 191 Hanja characters from historical documents, and submitted them to IRG Working Set 2021 (IRG N2484).

2. ROK Responses to CJK Working Set 2021 V1.0

ROK responded to the Consolidated Comments of CJK Working Set 2021 V1.0 (IRGN 2478) on the ORT (Online Review Tool).

3. Horizontal Extension of 51 Characters

ROK requested a horizontal extension of 51 Hanja characters to the next version or amendment of ISO/IEC 10646. (See IRG N2512 for details.)

There are lots of K Hanja characters that were originally submitted by ROK for Ext.F, Ext.G, and Ext.H which were unifiable with existing UCS CJK Ideographs. It was recommended to make a horizontal extension of them instead.

4. Updated ROK Normalization Rule V1.6.

ROK updated ROK Normalization Rule V1.5. and will release V1.6 soon. The aim of this document is to set up a normalization rule for Hanja characters.
