Here is a summary of Vietnam's activities leading up to IRG #63

1. WS2024 Submission
We submitted images, evidence, and metadata for the 1,000 Vietnamese candates to WS2024 on 11 July 2024. There was some missing data, for which we provided updates in late August.

2. Review of Working Set 2024
We completed our assigned review of the new candates from serial numbers 03504 through 04674 using the Online Review Tool.

3. Response to comments
We have been responding to comments from reviewers in the ORT as they come in. Some of the comments concern glyph design, and we have updated the Nom Na Tong font in response. The font is available for submission when needed.

4. Attendance at IRG #63.
Lee Collins will attend in person. Eiso Chan and Ngô Trung Việt will participate on-line.
