**Doc Type:** Ideographic Research Group Document  
**Title:** Request to update the G-source glyph and source reference for u3A17  
**Source:** Kushim Jiang (姜兆勤)  
**Status:** Individual Contribution  
**Action:** For consideration by IRG and China  
**Date:** 2025-06-27

The [Code Charts](#) shows u3A17 as:

3A17  
手 64.9

捷 GHZ-31914.07	捷 T3-3B6E	捷 JA-2342
捷 KP1-4682	捷 H-FCB4	

The evidence of G-source glyph 捷 (GHZ-31914.07) is shown as:

捷同“捷”。

GHZR-source shows the same explanation, without referring to any literature. Therefore, the origin of this glyph is questionable. We speculate that these glyphs, which are explained directly without any references, were collected from GB 18030—2000.

A similar and unifiable actual shape is shown in TGH (通用规范汉字表):

2167	捷		[捷]
------	---	--	-----

We hope that the Code Charts can better reflect the glyphs in TGH. Therefore, **we request that consideration be given to updating the G-source reference glyph on u3A17.**

Since this glyph appears on page 173 of the GGFZ-source evidence, as shown below, **we recommend changing the source reference to GGFZ-017300.**

捷 [捷] jié 一级 11画 ① 战胜：
