

Title: Feedback on IRG N2894
Source: Wenjie Dong
Status: Individual Contribution
Action: For consideration by IRG, SAT, ROK
Date: 2025-10-19

In [IRG N2894](#), SAT raised an issue on disunification between KC-06763 and SAT-03743 of U+2E5A2. We recommend that SAT do no operation, but instead suggest ROK modify the glyph of KC-06763.

KC-06763 was submitted by ROK for CJKUI Extended F in [IRG N1887](#). According to submission form of N1887, the IDS of this character is 𪛗莊衣, matching the glyph in KHO and its original evidence, which is 東國大學校 中央圖書館 所藏 楓溪集. However, the glyph ROK provided was shaped as 𪛗^ㅍ裝, not match the ones shown in above materials.

Therefore, for better match with the glyph and information from KHO, this document proposes changing the glyph of KC-06763 裝 from 𪛗^ㅍ裝 to 𪛗^ㅍ裝. This modification is not related to KR Normalization Rule.
