

Doc Type: Ideographic Rapporteur Group Document
Title: Request for updating the source reference information of 522 G4K-Source characters
Source: Kushim Jiang (姜兆勤)
Status: Individual Contribution to IRG #52
Action: For consideration by JTC1/SC2/WG2/IRG and China
Date: 2018-12-25

1. Introduction

In [IRG N2267](#) I suggested for updating source reference information for G4K-Source characters. However, according to IRG PnP, the source reference should begin with a member body abbreviation or an international consortium abbreviation followed by no more than 9 characters. Therefore, a new plan should be presented.

The Frequency Statistics for Characters in Ancient Books (古籍汉字字频统计) is written by *Unihan Digital Technology Co., Ltd.* (北京书同文数字化技术有限公司), published by *the Commercial Press* (商务印书馆). *Unihan* is also the company which undertook the digitization of *Siku Quanshu* (四库全书), so using this book as the evidence should be trustable.

The book shows the frequency statistics for characters in *Siku Quanshu* and *Sibu Congkan* (四部丛刊) in an amount of 30,136 characters. Each character will be given a number. Then the source information can be updated with a no-more-than-9-characters source.

Unihan Digital Technology Co., Ltd., Beijing (北京书同文数字化技术有限公司). *The Frequency Statistics for Characters in Ancient Books* (古籍汉字字频统计) [M]. The Commercial Press (商务印书馆), 2008.

2. Information of new G4K-Source references

The first chart shows 485 characters found in the book. These characters will be in G4K source with the syntax of G4K-[0-9]{5}.

The second chart shows 3 characters which cannot be found in the book but can be found in *Siku Quanshu*. I request to change them to G49 source, where “4” means “G4K” and “9” means “G9”. The value of G49 will be the same as the value of G9 with the syntax of G49-[0-9A-F]{4,8} and G9-[0-9A-F]{4,8}.

UCS	Glyph	<i>Siku</i> Location	New Reference
21240	仝	02280312.0134	G49-9535DB38
272E3	蛭	02210350.0312	G49-9735AD37

28E34	阡	14610085.0703	G49-9830F330
-------	---	---------------	--------------

The third chart shows 34 characters which cannot be found in *Siku Quanshu*. So G9 source would be better.
