

ISO/IEC JTC1/SC2/WG2
Coded Character Set
Secretariat: Japan (JISC)

Doc. Type: Draft disposition of comments

Title: Draft disposition of comments on CDAM2.4 to ISO/IEC 10646 6th edition

Source: Michel Suignard (project editor)

Project: JTC1 02.10646.00.02.00.06

Status: For SC2 consideration

Date: 2024-05-22

Distribution: WG2

Reference: SC2 N4915, N4916

Medium: Paper, PDF file

Comments were received from the following members: Czech Republic, India, and USA. The comments from the Czech Republic were only made in the header file of SC2 4915 and have been inserted in the disposition section as UNMZ-04 and UNMZ-05.

The disposition only adds a formal alias to U+1680B and corrects a typo in the format of the kRSUnicode key in CJKSrc.txt. The decision to either make a new CDAM ballot or postpone the encoding of two Archaic Shrii characters should be made in consideration of the other document SC2 N4916 submitted by the US NB which also cover Amendment 2. Note that issuing a new CDAM (2.5) would necessitate extending the project schedule.

Details of the comments and draft disposition are provided on the following page.

Template for comments and secretariat observations

Date:2024-05-15

Document:

Project:

MB/ NC ¹	Line number	Clause/ Subclause	Paragraph/ Figure/Table	Type of comment ²	Comments	Proposed change	Observations of the secretariat
US- 001				Technical	An error was discovered in the name U+1680B BAMUM LETTER PHASE-A MAEMGBIEE. The name should have been BAMUM LETTER PHASE-A MAEMGBIEE. To rectify the situation, we recommend a formal name alias of type "correction" be added for this character.	Add a formal alias BAMUM LETTER PHASE-A MAEMGBIEE of type "correction" for U+1680B BAMUM LETTER PHASE-A MAEMGBIEE	Accepted
BIS- 002	14	35.5	Kannada Table	Technical	Archaic Shrii for Telugu and Kannada needs further verification. Due to diverse views from linguists a consensus could not be reached, therefore, it may be appropriate to provide more time so that India can do wider consultation with more experts and also seek views of concerned State Governments and reach to a conclusion.	The date of the ballot may be further extended by 08 weeks to ensure consensus-based decision making.	Propose accepted in principle, by pushing decision to a new amendment or new edition of 10646. See also document SC2 N4916
BIS- 003	11	35.5	Telugu Table	Technical	Archaic Shrii for Telugu and Kannada needs further verification. Due to diverse views from linguists a consensus could not be reached, therefore, it may be appropriate to provide more time so that India can do wider consultation with more experts and also seek views of concerned State Governments and reach to a conclusion.	The date of the ballot may be further extended by 08 weeks to ensure consensus-based decision making.	Propose accepted in principle, by pushing decision to a new amendment or new edition of 10646. See also document SC2 N4916.
UNM Z-004		2	Normative references	Technical	Suggested normative reference to Unikemet is to a version tracked second draft version of the document.	A final version should be referenced instead.	Accepted in principle, by necessity any committee draft or even draft may refer to draft versions of referenced document. However, the published version will have a link to a non-draft version.
UNM Z-005		24.2	Source reference file for CJK Ideographs	Technical	The kRSUnicode third field format seems to have unbalanced parentheses, missing closing parentheses before the star.	Add a closing parentheses	Accepted

1 **MB** = Member body / **NC** = National Committee (enter the ISO 3166 two-letter country code, e.g. CN for China; comments from the ISO/CS editing unit are identified by **)

2 **Type of comment:** **ge** = general **te** = technical **ed** = editorial
